

Technology Overview 2026

- A comprehensive overview of CGM systems, insulin pens, pumps and AID (loop) systems is given by Dr. Van Boxelaer (Diabetotech <https://www.diabetotech.com>), available here:

Of course it is up to you to find out which of the many options are actually available in your country, what the approval status by national regulatory bodies is, and what might be “accepted” by your doctor and your insurance.

- Note that Tim Street runs an online site with similar name, Diabettech (<https://www.diabettech.com>), and there you regularly find detailed test reports from trying out new products.
